Testimonial for Paul Willey, IFA Financial Services

I have been working with Paul Willey of IFA Financial Services for the past four years. Being in property management, I am frequently asked for recommendations for mortgage and insurance advice. When recommending Paul to my clients I am always confident that the advice they receive will be clear and well-researched, often resulting in significant savings for my clients. As an independent advisor, Paul has access to a huge range of products so he can evaluate the best value and most suitable products for his clients. To that end, Paul has been particularly good at finding products to suit my self-employed clients who often do not meet standard lending criteria.

Paul's company offers a transparent, flexible and personalised service, without any gimmicks. All my clients have been delighted with the advice and quality of service they have received from Paul and I would highly recommend Paul and IFA Financial Services.
